## FLOOR REPAIRER RAPID PATCH

DUNLOP FLOOR REPAIRER RAPID PATCH is a fast setting patching mortar that can be used on cracks and holes to any depth prior to laying tiles, vinyl or carpet floor coverings. It is ready to walk on in just 45 minutes and ready for floor coverings after 1 hour.

**FUNCTIONS**

Concrete, renders (walls), screeds, masonry, timber, compressed fibre cement and Magnesium Oxide floor boards

**LOCATION**

Indoor and outdoor

**COVERAGE**

3m² at 1mm thickness per 5kg or  
1m² at 3mm thickness per 5kg

**BED THICKNESS**

Repair cracks and holes of up to 20mm

Size	Barcode	Item Code
5kg	9315021022674	20050

## MULTIPURPOSE FLOOR LEVELLER

DUNLOP MULTIPURPOSE FLOOR LEVELLER is a cement-based compound, that when mixed with water provides a smooth, pourable, free-flowing material designed for smoothing uneven concrete before applying floor coverings such as carpet and ceramic tiles. It can be walked on in 2 hours and tiled over in 4 hours. DUNLOP MULTIPURPOSE FLOOR LEVELLER is also suitable for ramping and bulk fill.

**SUBSTRATES**

Concrete

**LOCATION**

Indoor & outdoor

**COVERAGE**

9m² at 1mm thickness per 15kg bag or  
3m² at 3mm thickness per 15kg bag

**BED THICKNESS**

Up to 25mm in one application

**SURFACES**

Floors

Size	Barcode	Item Code
5kg	9315021021318	10309
15kg	9315021021325	10308

## ARDIT FLOOR LEVELLER

THE ULTIMATE IN ARDIT FLOOR LEVELLING TECHNOLOGY IS BACK. For over 50 years, ARDIT technology has been at the forefront of floor levelling solutions. Renowned in the trade for its outstanding performance, DUNLOP ARDIT FLOOR LEVELLER is a high quality cement-based levelling compound with superior qualities of flow and workability.

**SUBSTRATES**

Concrete

**LOCATION**

Indoor and outdoor use under covered areas

**COVERAGE**

4m² at 3mm thickness per 20kg  
12m² at 1mm thickness per 20kg

**LEVEL THICKNESS**

1 – 25mm without aggregate  
Bulkfill to 50mm with aggregate

**WALKABILITY**

3 hours

**FLOOR COVERINGS**

Ready for tiles in 3 hours  
Vinyl and carpet in 24 hours

**MIXING**

4.5L water per 20kg bag

Size	Barcode	Item Code
20kg	9315021022179	11323

## ARDIT RAPIDSET REPAIR MORTAR

ARDIT RAPIDSET REPAIR MORTAR is an extremely rapid hardening construction mortar which is trafficable after just 45 minutes and ready for floor coverings after 1 hour.

**SUBSTRATES**

Concrete, render, screeds, masonry, plasterboard, timber, fibre-cement sheet

**LOCATION**

Indoor and outdoor

**THICKNESS**

Up to 20mm

**WORKING TIME**

15 minutes

**COVERAGE**

3m² at 1mm thickness per 5kg bag  
1m² at 3mm thickness per 5kg bag

**WALKABILITY**

45 minutes

**FLOOR COVERINGS**

Ready for floor coverings after 1 hour

Size	Barcode	Item Code
5kg	9315021022339	13519
10kg	9315021121391	40770

## LEVEL-FLEX TIMBER FLOOR LEVELLER

DUNLOP LEVEL-FLEX TIMBER FLOOR LEVELLER is a partially self-smoothing latex floor leveller with excellent properties of adhesion, flexibility and water resistance for use prior to the installation of ceramic tiles, carpet, floorings floors and vinyl floor coverings. It is easy to mix and produces a smooth, flat surface. The new and improved formulation boasts no odour and excellent flow.

**SUBSTRATES**

Timber and concrete

**LOCATION**

Indoor

**COVERAGE**

Approximately 7m² per 14.9kg unit  
(12kg powder, 2.9L liquid) at 1mm bed thickness or 2.3m² at 3mm bed thickness

**KIT CONTAINS**

- 1L Primer
- Level-Flex Timber Floor Leveller (12kg powder, 2.9L liquid)

Size	Barcode	Item Code
15.9kg Kit	9315021023404	24885

## ARDIT TIMBER FLOOR LEVELLER

DUNLOP ARDIT TIMBER FLOOR LEVELLER is an advanced fibre reinforced smoothing and levelling compound for internal use. It incorporates MICROTEC technology that is designed to rapidly smooth and level new and existing substrates prior to applying the finished floor covering such as ceramic tiles, carpet, floating floor boards or vinyl flooring.

**SUBSTRATES**

Timber and concrete

**LOCATION**

Indoor

**COVERAGE**

Approximately 1.4kg of DUNLOP ARDIT TIMBER FLOOR LEVELLER powder/m²/mm, e.g. one bag will cover approximately 3m² at 3mm thickness.

**KIT CONTAINS**

- 1L Primer
- Ardit Timber Floor Leveller (15kg powder)

Size	Barcode	Item Code
16kg Kit	9315021121650	44774

## ARDIT FEATHER FINISH

DUNLOP ARDIT FEATHER FINISH is a cement based smoothing compound designed to provide a smooth finish to a variety of internal substrates prior to the installation of floor coverings such as vinyl, carpet and ceramic tiles.

### SUBSTRATES

Concrete, tiles, sheet timber (plywood & particleboard) and DUNLOP FLOOR LEVELLER

### LOCATION

Indoor

### COVERAGE

Skim coat 12m<sup>2</sup> over concrete and 24.5m<sup>2</sup> over sheet timber per 3.5kg. Skim coat 28m<sup>2</sup> over concrete and 56m<sup>2</sup> over sheet timber per 8kg

### THICKNESS

Feather edge to 3mm

### SURFACES

Floors

Size	Barcode	Item Code
3.5kg	9315021023411	24881
8kg	9315021023428	24969

## ARDIT CRACK FILLER

High Strength Hybrid Polyurethane that repairs spalls and cracks in concrete instantly. ARDIT CRACK FILLER has a viscosity similar to water, yet sets stronger than concrete in 1 hour. Large cracks and spalls can be subjected to vehicular traffic after just 20 minutes.

### SURFACES

Concrete

### LOCATION

Indoor and outdoor

Item	Barcode	Item Code
254ml	9315021022643	19924

- ✓ STRONGER THAN CONCRETE
- ✓ CRACK FILLER AND SPALL REPAIR
- ✓ SETS FAST IN 20 MINUTES
- ✓ SELF MIXING 2-PART PU

## BUILDER'S BOND

High strength multipurpose, rapid cure epoxy bonding and repair system. DUNLOP BUILDER'S BOND will bond together almost any material such as concrete, brick, block and wood and its specially formulated non-sag property is perfect for overhead, wall and floor repairs.

### LOCATION

Indoor and outdoor

Item	Barcode	Item Code
254ml	9315021022636	19923

- ✓ SETS STRONGER THAN CONCRETE IN 2 HOURS
- ✓ HIGH STRENGTH 2-PART EPOXY WITH SELF-MIXING NOZZLES
- ✓ CAN BE SHAPED, SANDED, PAINTED AND DRILLED

## PRIMER & ADDITIVE

DUNLOP PRIMER & ADDITIVE is a ready to use primer for enhancing the adhesion between surfaces and DUNLOP TILE ADHESIVES, FLOOR PREPARATION and WATERPROOFING products. As an additive to grout, it enhances the colour of the grout, increases adhesion, resists abrasion and stains and imparts a degree of flexibility.

### SUBSTRATES

Concrete, renders & screeds, plasterboard and fibre-cement sheets

### LOCATION

Indoor and outdoor

### SURFACES

Walls and floors

### COVERAGE

Approximately 10m<sup>2</sup> per litre

Size	Barcode	Item Code
1L	9315021021233	10347
4L	9315021021240	10348

## MULTIPURPOSE PRIMER

DUNLOP MULTIPURPOSE PRIMER is a water-based primer which enhances the bond between substrates and DUNLOP FLOOR LEVELLERS, RENDERS, TILE ADHESIVES and WATERPROOFING products. Suitable substrates include new and old concrete and compressed fibre-cement sheets. DUNLOP MULTIPURPOSE PRIMER is suitable for indoor and outdoor projects over walls and floors.

### SUBSTRATES

Fibre-cement sheets, concrete, renders and screeds, masonry and lightweight concrete blocks

### LOCATION

Indoor and outdoor

### COVERAGE

Approximately 6m<sup>2</sup> per litre

Size	Barcode	Item Code
1L	9315021114447	13538
4L	9315021023534	30138

## RAPID BOND COAT

DUNLOP BOND COAT is a water-based bonding coat that provides a chemical key to increase adhesion on smooth, dense, difficult non-porous substrates prior to the application of DUNLOP adhesives, floor levelling compounds and DUNLOP waterproofing membranes (in non-fully immersed situations).

### SUBSTRATES

Internal sheet timber (particleboard/plywood), medium density fibre-cement sheet, compressed fibre-cement sheet, jointing compound over plasterboard, Scyon™, concrete, renders, screeds, masonry and lightweight concrete blocks, autoclaved aerated concrete (AAC), existing glazed tiles (not suitable for shower floors, permanently immersed condition or steel trowelled finish concrete)

### COVERAGE

Approximately 10m<sup>2</sup> per litre

### LOCATION

Indoor and outdoor

Size	Barcode	Item Code
1L	9315021023701	32373

## UNDERTILE WATERPROOFING

DUNLOP UNDERTILE WATERPROOFING is an effective and simple to use waterproofing membrane specially designed to waterproof under tiles. It can be applied with a normal brush or roller. It is tough, flexible and fully compatible with DUNLOP TILE ADHESIVES AND GROUTS. With advanced acrylic polymers, it is safe to use, low in odour and approved to Australian Standards by an independent authority (BRANZ).

### SUBSTRATES

Wet area grade plasterboard, fibre cement, marine plywood, concrete, sand/cement renders and screeds, bricks, AAC blocks

### LOCATION

Indoor, outdoor, wet areas, balconies

### COVERAGE

20kg/5kg will waterproof up to 17m<sup>2</sup> /4.25m<sup>2</sup> on walls and 8.5m<sup>2</sup>/2.1m<sup>2</sup> on floors

Size	Barcode	Item Code
12.5kg	9315021121414	41069

## REINFORCING MAT

For use with DUNLOP UNDERTILE WATERPROOFING MEMBRANE this mat reinforces corners, joints and cracks. DUNLOP WATERPROOFING REINFORCING MAT is an integral part of the DUNLOP waterproofing system.

### FUNCTIONS

Reinforcing waterproofing membrane in critical areas; helping to ensure proper membrane thickness; and enabling immediate application of a second waterproofing coat. Also acts as a carrier for difficult to get at areas and smooths rough joints to ensure good membrane coverage

### SURFACES

Wall/floor junctions, wall/wall junctions, cracks, sheet joints, over metal/PVC angles, at 90° edges – external edge of balcony, over shower hob and hob/floor joint.

Size	Barcode	Item Code
100mm x 50m	9315021023787	37071

## DAMP-PROOF

DUNLOP DAMP-PROOF is an acrylic brush-on membrane that will prevent rising damp, efflorescence and will resist negative hydrostatic pressure. It can be applied to damp surfaces and freshly laid hardened (green) concrete and can be overcoated using almost any decorative paint.

### LOCATION

Indoor and outdoor

### COVERAGE

Up to 6m<sup>2</sup> per 4L, depending on application

Size	Barcode	Item Code
4L	9315021022391	13592

## EXPRESS WET AREA TAPE

DUNLOP EXPRESS WET AREA TAPE is a self-adhesive sealing tape that provides a waterproofing seal between the surface joints of the floor and wall, under shower grates and outlets in wet areas such as bathrooms, kitchens and laundries. Use in conjunction with DUNLOP EXPRESS WET AREA WATERPROOFING MEMBRANE for a rapid, total express waterproofing system and tiling can commence after 4 hours.

**COVERAGE**  
Up to 10m. A standard shower recess of 1.8m height will require approximately 7m of tape. Overlapping of tape to be a minimum of 15mm

Size	Barcode	Item Code
80mm x 10m	9315021023053	23648

## EXPRESS WET AREA WATERPROOFING

DUNLOP EXPRESS WET AREA WATERPROOFING is a high performance, water-based acrylic polyurethane membrane. It offers superior workability with high build capabilities to easily achieve the required thickness of an effective waterproof membrane. When used with the DUNLOP EXPRESS WET AREA TAPE tiling can be achieved after 4 hours.

**SUBSTRATES**  
Internal fibre-cement wall sheet, compressed fibre-cement sheet, wet area grade plasterboard, concrete, internal structural plywood (PAA branded) including marine or wet area grade only (the shower area must be sheeted using ceramic tile underlay), renders and screeds (cured for min. 7 days) and internal AAC blocks and panels

**LOCATION**  
Indoor, outdoor, wet areas, balconies

**COVERAGE**  
20kg/5kg will waterproof up to 17m<sup>2</sup> /4.25m<sup>2</sup> on walls and 8.5m<sup>2</sup>/2.1m<sup>2</sup> on floors

Size	Barcode	Item Code
1kg	9315021120998	39504
5kg	9315021023091	23715
20kg	9315021022483	16551

## PRO RAPID TAPE

DUNLOP PRO RAPID TAPE is a self-adhesive sealing tape that provides a waterproofing seal between the surface joints of the floor and wall, under shower grates and outlets in wet areas such as bathrooms, kitchens and laundries. Use in conjunction with DUNLOP PRO RAPID WATERPROOFING MEMBRANE for a rapid total waterproofing system and tiling can commence in 4 hours. Using this tape in conjunction with the DUNLOP PRO RAPID WATERPROOFING MEMBRANE meets the standard for waterproofing according to the Australian Building standards..

**COVERAGE**  
Up to 15m. A standard shower recess of 1.8m height will require approximately 7m of tape. Overlapping of tape to be a minimum of 15mm.

Size	Barcode	Item Code
80mm x 15m	9315021023930	38594

## PRO RAPID WATERPROOFING

DUNLOP PRO RAPID WATERPROOFING System consists of a water-based polyurethane-acrylic hybrid waterproofing membrane and PRO RAPID TAPE for undertile waterproofing, so tiling can begin in 4 hours. With crack isolation protection, it provides flexible coverage over plastic shrinkage, hairline and other non-structural cracks.

**SUBSTRATES**  
Internal Fibre-cement wall sheet, compressed fibre-cement sheet, wet area grade plasterboard, concrete (cured for min. 28 days), internal structural plywood (PAA branded) including marine or wet area grade only (the shower area must be sheeted using ceramic tile underlay), renders and screeds (cured for min. 7 days) and internal AAC blocks and panels

**LOCATION**  
Indoor, outdoor, wet areas, balconies

**COVERAGE**  
A 20kg unit (15 Litres) will cover approximately 17.5m<sup>2</sup>

Size	Barcode	Item Code
4kg	9315021121384	38592
20kg	9315021023923	40771

WALL TILE ADHESIVE

DUNLOP WALL TILE ADHESIVE is a ready mixed ceramic tile adhesive with superior flexibility and high grab to support even the heaviest of wall tiles.

TILE TYPES

Ceramic wall tiles, granite, marble (excluding moisture sensitive stone)

SUBSTRATES

Cement render, fibre-cement sheets, plasterboard, painted surfaces (adequately prepared)

TILE ADHESIVE CLASSIFICATION

Tile adhesives are classified according to certain performance criteria set by the international standard 13007. The below are the parameters which tile adhesives are tested against.

Tile Adhesives are classified into three main types:

- C – Cementitious adhesive
- D – Dispersion adhesive
- R – Reaction adhesive

Each classification above can have additional performance characteristics such as:

- 1 – Normal adhesive (standard strength tile adhesive)
- 2 – Improved adhesive (stronger tile adhesive)

- F – Fast setting/drying adhesive (with minimum tensile strength of 0.5MPa within 6 hours)
- T – Slip resistant adhesive
- E – Adhesive with extended open time (once spread, the adhesive can be left without a tile being fixed for a longer time)
- S – Special deformable characteristic, for cementitious adhesives only (degree of flexibility of the adhesive, either S1 – flexible or S2 – highly flexible)

Note: It is the responsibility of the contractor to check ISO 13007 for amendments.

VINYL ADHESIVE

DUNLOP VINYL ADHESIVE is a water based high strength, easy to spread adhesive for sticking vinyl sheet and vinyl tiles to most concrete and timber surfaces.

- SUBSTRATES  
Concrete, timber
- SURFACES  
Floors
- LOCATION  
Indoors

COVERAGE		
Approximately 5m <sup>2</sup> per litre

## TILE & GROUT CONCENTRATED CLEANER

DUNLOP TILE AND GROUT Concentrated Cleaner is an effective and easy to use everyday neutral cleaner that will remove general household dirt, grime and oils on tiles and grout.

**SURFACES**

Surface Tiles and Dunlop Grout

**APPLICATION**

Wipe on: Dilute 10mL per 1L of water or  
Spray on: Diluting 6mL per 1L of water

Size	Barcode	Item Code
1L	9315021022957	22504

## ARDIT CONSTRUCTION GROUT

A high strength construction grout that can be mixed to a paste-like or flowable mix, suitable for a wide range of projects. The DUNLOP CONSTRUCTION GROUT is formulated with an extended working time which allows more time for positioning. Suitable for indoor and outdoor use, this multipurpose non-shrink grout achieves approximately 45MPa in 7 days and 65MPa in 28 days.

**LOCATION**

Indoor and outdoor

**YIELD/COVERAGE**

11.2L per 20kg, non-slump mix  
12.0L per 20kg, flowable mix

**WORKABILITY**

Mix to a non-slump paste or flowable consistency

**COMPRESSIVE STRENGTH**

45MPa (after 7 days)  
65MPa (after 28 days)

**APPLICATION THICKNESS**

5–100mm

Size	Barcode	Item Code

20kg	9315021022193	10305

## GENERAL PURPOSE CONSTRUCTION GROUT

An economical, high-strength construction grout that can be mixed to a non-slump or pourable mix and is suitable for a wide range of projects and applications. The cement-based formulation contains additives that provide positive expansion when the grout is in its plastic state (Class A type) and is also shrinkage compensated when in the hardened state.

**LOCATION**

Indoor and outdoor

**YIELD/COVERAGE**

9.5L per 20kg, dry pack mix  
10.3L per 20kg, plastic state  
10.9L per 20kg, flowable mix

**WORKABILITY**

Mix to a dry mix or flowable consistency

**COMPRESSIVE STRENGTH**

70MPa (after 7 days)  
85MPa (after 28 days)

**APPLICATION THICKNESS**

10–100mm

Size	Barcode	Item Code
20kg	9315021023640	32288

## TILE POINTING

DUNLOP TILE POINTING is a flexible adhesive mechanical fastener for hip and ridge tiles, surpassing relevant Australian standards. DUNLOP TILE POINTING achieves C4 Classification for approved use in cyclonic regions (independently tested).

**SURFACES**

Hip and ridge roof tiles

**LOCATION**

Outdoors

**COVERAGE**

Depending on application technique, 10L of DUNLOP TILE POINTING will cover approximately 20–22 lineal metres of ridging

MULTIPURPOSE ACRYLIC RENDER

A multipurpose, acrylic render suitable for indoor and outdoor projects over a wide variety of surfaces including brickwork, AAC blocks and concrete. The unique formulation is creamy, boasts superior trowelability and can be applied up to 10mm with no sagging or cracking.

**SUBSTRATES**  
Brickwork, concrete blockwork, concrete walls, AAC panels and blocks

**LOCATION**  
Indoor and outdoor

**THICKNESS**  
2–10mm

**COVERAGE**  
20kg of Acrylic Render will cover approximately 6.5m² at 2mm thickness or 2.6m² at 5mm thickness

Size	Barcode	Item Code
20kg	9315021022261	13372

FLEXIBLE FINE COAT RENDER

DUNLOP FINE COAT RENDER is a fibre-reinforced polymer modified render that provides superior adhesion and flexibility and is suitable over a variety of substrates. The render can be applied using standard trowelling methods or by spray and finished using a wooden or plastic float for a dense and smooth finish or a sponge for coarse and sandy finish.

**SUBSTRATES**  
Brickwork, FC sheet/blueboard, concrete and blockwork, painted surfaces, existing render, AAC (autoclaved aerated concrete) panels and blocks, EPS (Expanded and extruded polystyrene walling systems)

**LOCATION**  
Indoor and outdoor

**THICKNESS**  
2–10mm

**COVERAGE**  
20kg of Fine Coat Render will cover approximately 6.5m² at 2mm thickness, 2.6m² at 5mm thickness and 1.3m² at 10mm thickness

ARDIT TROWEL

The DUNLOP ARDIT TROWEL is the ideal floor levelling tool, made from high strength stainless steel and supported by multiple rivets in it's construction. The unique ErgoGrip handle provides a comfort whilst achieving a professional finish.

Barcode	Item Code
9315021022803	22309

GAUGING TROWEL

The DUNLOP GAUGING TROWEL is a multipurpose tool ideal for applications such as concrete, screeds, renders, masonry and roof pointing. Made from high quality carbon steel, the gauging trowel has a unique ErgoGrip handle for added comfort.

Barcode	Item Code
9315021022810	22310

CONCRETE FLOAT

The DUNLOP CONCRETE FLOAT is a hard wearing sides-up float for a professional concrete finish. Made from high strength stainless steel, the float also features the Dunlop ErgoGrip handle.

Barcode	Item Code
9315021022827	22311

CONCRETE EDGER

The DUNLOP CONCRETE EDGER is a quality stainless steel trade tool which is ideal for providing superior edging in concrete for a professional finish.

Barcode	Item Code
9315021022841	22313

EXT. CORNER TOOL

The DUNLOP EXTERNAL CORNER TOOL provides a superior and professional finish for external corners when applying renders.

Barcode	Item Code
9315021022797	22308

RENDERERS HAWK

The DUNLOP RENDERER'S HAWK is a quality trade tool for rendering. The Hawk is made from a strong, grooved aluminium plate that supports the render during application.

Barcode	Item Code
9315021022728	22300

RENDERERS BRUSH

The DUNLOP RENDERER'S BRUSH is a quality trade tool made from palm fibre bristles which is ideal for wetting down surfaces prior to rendering.

Barcode	Item Code
9315021022735	22302

PLASTIC FLOAT

The DUNLOP PLASTIC FLOAT is a quality PVC tool for achieving a smooth render finish.

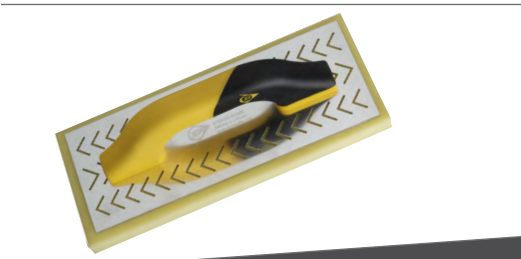

Barcode	Item Code
9315021022759	22304

POLY FLOAT

The DUNLOP POLY FLOAT is a quality trade tool which is ideal for providing a superior, professional finish for renders and screeds.

Barcode	Item Code
9315021022766	22305

SPONGE FLOAT

The DUNLOP SPONGE FLOAT for a superior render finish contains a perforated aluminium plate for water transfer through the back of the float.

Barcode	Item Code
9315021022780	22307

FINISHING TROWEL

The DUNLOP FINISHING TROWEL for rendering is made from a high strength stainless steel with a unique ErgoGrip handle. This high quality tool is ideal for providing a superior, professional finish for renders and screeds.

Barcode	Item Code
9315021022742	22303

WOODEN FLOAT

The DUNLOP WOODEN FLOAT is made from hard wearing beechwood and is used for finishing renders, concrete and screeds. The unique ErgoGrip handle makes it comfortable to work with for a professional finish.

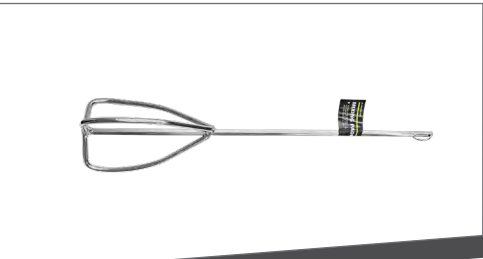

Barcode	Item Code
9315021022773	22306

SCOOP

The DUNLOP SCOOP is made from high strength steel with a unique ErgoGrip handle. This high quality tool is ideal for providing a superior, professional finish for renders and plasterers.

Barcode	Item Code
9315021023558	30400

MIXING PADDLE

The multi-use mixing paddle is perfect for mixing mortars, tile adhesives, floor levellers, render, plaster and screeds. Designed to efficiently remove dry powder from the sides and bottom of the bucket, ensuring a 100% product mix.

Barcode	Item Code
9315021121803	44585

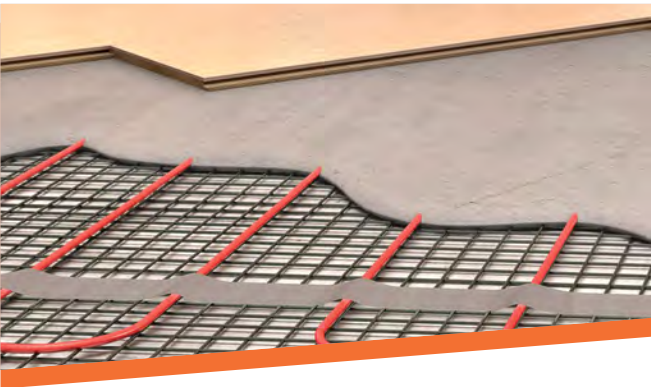

NON-SLIP BUCKET BASE

The DUNLOP NON-SLIP BUCKET BASE is high strength rubber that provides a strong grip for the Dunlop 10L pails.

HOTWIRE UNDER TILE HEATING

The HOTWIRE UNDERTILE HEATING SYSTEM is the ultimate in luxury heating. Warmth will be achieved in as little as 30–60 minutes. The fully programmable thermostat can simply be programmed around your lifestyle. Add the low running costs and environmental benefits such as mould reduction, and in turn less cleaning, and you have a touch of luxury at an affordable price. All this for much lower running costs than your standard heat lamp unit.

SURFACES

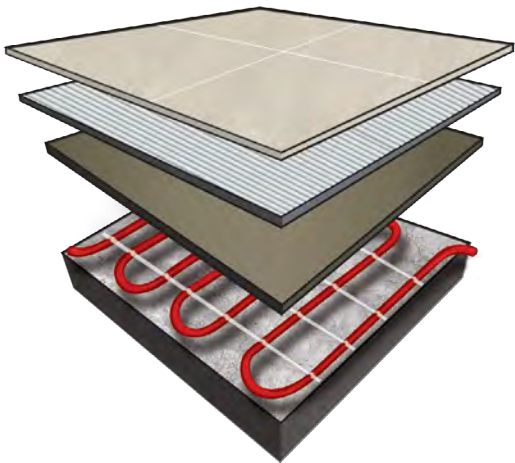

Floors: Concrete, sheet timber, high density compressed fibre cement sheet
